

Steve
MONTENEGRO'S
Save America Plan

PROVEN CONSERVATIVE

REPUBLICAN

MONTENEGRO

U.S. CONGRESS

My plan to save
America is simple

Return to what we know works.

Honor our nation's core values, defend life, restore liberty, and free Americans to pursue happiness. We must pursue policies that put America First and cherish the individual. I have been blessed to live the American dream, and I'll fight to preserve it for everyone as your Congressman.

NO AMNESTY / BUILD THE WALL

1 No Amnesty for illegal aliens. Enforce our existing laws. Fully fund and complete the border wall. Properly equip our U.S. Customs and Border Protection personnel. End sanctuary cities. These aren't just campaign promises for me. I voted for SB1070, a border wall, and an end to sanctuary cities, and I'll keep up the fight in Congress.

REBUILD AMERICA'S DEFENSES

2 Eight years of Barack Obama's reckless mismanagement has hollowed out our military. With the world more dangerous than ever, we need to rebuild our military and ensure that our fighting men and women have the tools they need to fight and win when necessary. I helped save Luke AFB not just because it mattered to our economy, but because it plays a critical role in defense of our homeland.

CUT SPENDING AND BALANCE THE BUDGET

3

We need to cut wasteful spending in Washington D.C., shrink bloated bureaucracies, and pass a Balanced Budget Amendment. I voted for the BBA while in the Legislature along with the Convention of States to force Congress to live within its means. We are \$20 Trillion in debt and time is running out.

SHUT DOWN FAILED AGENCIES

4

You can make a long list of agencies that lack constitutional authority, have failed to achieve their mandate, or have evolved into something they were never intended to become. The good news is that we are looking for ways to cut government, balance the budget, and protect taxpayers. So let's shrink, refocus, and/or shut down agencies or departments that are failing this country.

REFORM ENTITLEMENTS / PROTECT AND STRENGTHEN SOCIAL SECURITY

5

The greatest threats to the safety net our government has promised to provide is our national debt and our ongoing budget deficit. That's why we need to balance our budget and keep our promises to our senior citizens and why we need to look at reforms that give options to our younger citizens. We also need to look at reforming our entitlements to ensure that we are helping those who truly need it, while not encouraging dependence.

TERM LIMITS

6

Our founders intended for citizen legislators, not career politicians. That is why, while in the Legislature, I voted for a Congressional Term Limit and agreed to run the bill to call for an Article V Convention for Congressional Term Limits. I have also signed a Term Limits pledge with U.S. Term Limits.

CUT TAXES

7

I voted for the largest tax cuts in Arizona history because I know that high taxes kill jobs and slow our economy. I will attack the federal tax code like I did Arizona's tax code. I have also signed a pledge to repeal the Death Tax.

BETTER JOBS/HIGHER WAGES/ LESS REGULATIONS

8

Government needs to get out of the way for the private sector and free market to create jobs. I know it works because we made it work here in Arizona. We cut taxes and regulations and watched as our economy grew, employers started hiring again, and out of state companies flocked to Arizona from higher-tax states like California. This phenomenal growth has led to higher wages for Arizona workers. The formula works at the state level and it will work at the federal level as well. Take the handcuffs off of our economy and watch America grow again.

DEFEND HUMAN LIFE AND OUR RELIGIOUS FREEDOM

9

I will defend the right to life as I always have. I will vote to defund Planned Parenthood and any other organization that funds or performs abortions. No taxpayer money should flow to such organizations. I have a 100% pro-life voting record and wrote the nation's first ban on abortions for the purpose of race/sex selection. I voted to protect our Religious Liberties and will fight to protect them at the federal level. I also believe we must continue to advocate for people around the world who are being targeted for their Christian beliefs.

HONOR OUR HERITAGE

10

It is critical to teach civics in schools again to defend our heritage and culture. Towards that goal, I ran the first in the nation American Civics Act that became a national model that is being copied by dozens of other states. It requires high schoolers be able to pass the citizenship test in order to graduate. We need to ensure that our kids know about our freedoms, where they came from, and how they must be protected. Otherwise, we will lose them.

REFORM AND IMPROVE THE VA

11

We need to reform and improve the VA, offer our veterans private-sector alternatives, and provide increased early intervention services to help those dealing with mental health issues. They have sacrificed for us and deserve the very best we can give them.
